

Looking for environmental **COMPLIANCE** across your **ENTIRE** organization?

Total Process Management

IVY provides extensive support for Program Management, EMS Management (Aspects, Assets, Process, and Equipment), Custom Checklist Templates, Chemical Inventories, Hazardous Chemical Thresholds, Messaging, Tasks, System Alerts and much, much more.

Total Access

IVY leverages the advantage of maintaining and organization's data in a single repository, regardless of the number of locations or geographical proximity. Real time data management, decision support and forecasting are always at your fingertips.

Total Compliance in Mind

IVY makes compliance its centerpiece. All EMS processes integrate with reporting and electronic data exchange to help organizations achieve ISO 14001 compliance. IVY empowers end-users in the process of reducing environmental impacts and conserving natural resources.
