

Looking for an Membership Management Solution that works across your **ENTIRE** organization?

Everywhere you are

Union Fusion leverages DRG's **Total View Technology** which provides the distinct advantage of seeing and working with information across your entire organization, real time! This level of information access allows for efficient and dependable support, strategic decision making, and accurate forecasting.

A Comprehensive Solution

Union Fusion provides extensive support for total contact management, membership, education, work history, OJT hours, events, e-commerce, referrals, communications, contributions, an integrated CMS, financials and much, much more.

Total Website Integration

Union Fusion was designed to work with your current business activities by providing easy integration with your existing content. Events, Store Items, Memberships and much more are integrated with your existing website eliminating redundancy in data management and streamlining the way you run your business.
